

PIRANHAFLEX™ HYDRAULICS

Fear the Fish!™

Since our founding in 1959, our mission has never been to be the biggest, but to always be the best at what we do. It's this focused dedication that has made the name Piranhaflex™ synonymous with high quality and innovation.

Manufactured at our state-of-the-art, Piranha Hose Products production facility in the heart of Northern Michigan, the Piranhaflex line of thermoplastic hydraulic hose offers a variety of products specially engineered to meet the challenges of the utility industry.

PF354NC Series

- Meets or exceeds SAE J517 standards
- Tested to 1/2 SAE bend radius requirements
- Exceeds 100R7 impulse requirements

PFP354NC Series

Low friction, Slither® cover allows for easy installation through tight hose bundles on aerial equipment such as scissor lifts and bucket trucks.

PF267NC Series

- Meets or exceeds SAE J517 standards
- Tested to 1/2 SAE bend radius requirements
- Exceeds 100R7 impulse requirements
- ★ **Specially engineered kink resistance, up to 53% more force required to reach kink initiation***
- ★ **Improved flexural properties, up to 16% less force required to bend.**
